

**PLASTIC
FREE
COOLUM**

LOOKING FOR A PLASTIC-FREE ALTERNATIVE TO BOTTLED WATER FOR YOUR BUSINESS?

For the love of Coolum, check out these beautiful aluminium bottles which can be refilled, reused and infinitely recycled.

Custom designed, stylish and affordable. These bottles maintain a similar profit margin for businesses, and make a massive positive impact on the environment.

Bottled by Bluesky Beverages, they are filled with Australian sourced spring water.

WHY ALUMINIUM?

Around 70% of aluminium water bottles are recycled in Australia, compared to only 21% of plastic bottles.

You can recycle aluminium infinitely. Plastic can only be recycled 1-2 times, meaning it ends up in landfill anyway and can take up to 1000 years to break down.

You use 11% less energy to chill aluminium bottles than comparable plastic bottles.

HOW TO ORDER?

These bottles are in partnership with Australian-owned Bluesky Beverages.

Bluesky Beverages can deliver to all Plastic Free Coolum members. For free shipping on a minimum two case order, **be sure to use the code: PFCMEMBER23**
